EXPERIENCE

Actualize Bootcamp, Chicago, IL — *Software Engineer*

July 2018 – November 2018

- Worked with a variety of different languages, platforms, frameworks, and content management systems such as JavaScript, Ruby, Rails, Vue.js, SQL, HTML, and CSS.
- Completed multiple website projects focused on creativity and originality
- Completed Capstone Project: TeddyCare App
 - Interactive health information storage app with voice-design integrated into app. The backend was built using rails and the front-end was deployed on vue.js. A feature of this app includes an Alexa api that can voice-enable dialogues through a teddy bear.

Loyola Homecare, Chicago, IL — *Speech Therapist*

February 2018 - Present

- Completed assessments- identified and resolved various problems to be addressed
- Communicate with multi-disciplinary teams on a daily basis
- Mastered scheduling and time management skills by creating a schedule for 10-20 patients per week

HealthPro Rehabilitation, Chicago, IL — *Speech Therapist*

April 2016 - April 2018

- Conducted staff education presentation- presenting to 10-20 cohorts on various topics
- Identified potential problems that could arise and created plans to fix prior to becoming visible issues
- Completed in-depth research to assist in creating thorough analysis and treatment

Genesis Health Care, Chicago, IL — *Speech Therapist*

July 2014 - March 2016

- Presented treatment plans and progress to department heads during daily meetings
